INTRODUCTION

Glory League is a sports technology company that provides digital solutions for amateur and grassroots basketball organisations.

We offer services designed to enhance the basketball experience for 'everyday' players, coaches, fans (family and friends), and administrators. These services include a video engagement platform, digital scoring, and player statistics tracking.

Our founder is a passionate club basketballer with the goal of keeping players engaged and playing the game so they could reap all the social and physical benefits from participation. Previously, such products were only available for elite players or professionals. Glory League is available to players at all levels, hoping they will form a lifelong connection to the sport.

Glory League is utilised by Basketball Leagues and Associations because it helps address essential issues in amateur sports, including player participation drop off, poor behavior from players and parents, support for referees and coaches, and the need to increase female participation.

Glory League:

1. Attracts and retains players, coaches, refs, and fans - Sports participation is decreasing globally. A participant using Glory League engages in what's important to them. This supports their motivation to take part and keeps them engaged with the sport.
2. Safer leagues and improved behavior - Fewer on-court incidents occur when players, coaches, and fans know their games and actions are being filmed. Bad behavior and incidents are quickly addressed by referring to Glory League videos.
3. Community engagement with family and friends - In a busy world, family members and supporters can't always attend games. Glory League allows them to share in the game experience. That connection improves the experience, which is a driver of ongoing participation.
4. Player, coach, and referee development - Training and retaining coaches and referees have never been harder for community sports. Glory League provides tools previously only available for professional leagues.
5. Affordable, with very low administrative overhead – Glory League is automated, so requires no additional setup for time-poor administrators.

KEY PARTNERSHIPS

FREQUENTLY ASKED QUESTIONS

WHEN CAN THE CAMERAS BE USED, AND CAN THEY BE USED WHEN OTHER GROUPS ARE USING THE COURT?

Basketball Associations/Glory League customers can only use the camera (record and Live Stream) by scheduling a game via the association's competition management software or via the Glory League admin area. They have no other access to the camera or footage and the camera will not record at any other time.

Glory League can restrict when games can be scheduled by Associations (e.g. no recording during the working day or other designated times), so that recordings can only be scheduled when the Association is using the venue.

Venues can advise the Association and Glory League of times when game recordings cannot be scheduled. In some instances, the cameras can be powered down when not in use by the association.

HOW SECURE IS THE CAMERA FEED AND/OR THE DATA STORAGE?

Glory League content and data is stored and served from AWS in Sydney, Australia. AWS is a world leader in cloud security and has strong safeguards in place to help protect privacy. All data is stored in highly secure AWS data centres. Glory League's onsite server provides temporary storage while the games are uploaded to AWS.

HOW CAN A PERSON RAISE CONCERNS ABOUT THEIR PRIVACY WITH GLORY LEAGUE?

IS GLORY LEAGUE CONSIDERED SURVEILLANCE EQUIPMENT?

No. Glory League is solely used to provide a video engagement system. The system only records during a scheduled game.

HOW DOES GLORY LEAGUE ENSURE THAT THE SYSTEM WILL NOT BE USED TO RECORD OTHER USE OF THE FACILITY?

As mentioned above, Basketball Associations can only record footage by scheduling a game. If requested by a venue, Glory League can block the scheduling of games at certain times of the day.

Basketball Associations are unable to view or record video footage in any other way.

Outside of the associations scheduled games, Glory League only accesses the equipment/camera to fix or upgrade the system. This is rare and when a camera is accessed by a Glory League technician an alert message is sent to Glory League Management providing company wide visibility to the work being undertaken. The venue can also be notified. The venue can provide agreed timing for camera maintenance work. Weekly access log reports to monitor recordings are available for venues.

By applying the five simple Glory League guidelines, below, in addition to those set out by your club, everyone involved in and/or supporting your game is going to have a good time.
